

Mabanol Pirate Race 10W-40

4 Stroke Motorcycle Engine Oil

Application

Mabanol Pirate Race 10W-40 is an engine oil developed for use in four-stroke motorbike engines. It satisfies the technical demands of all motorcycle manufacturers, and is suitable for all air-cooled and water-cooled 4-stroke motorbike engines. The high engine cleanliness and wear protection properties afforded by this oil lengthen engine life of the machine. Both qualities are suitable for wet clutches. Clutch grabbing and slipping after a cold start are averted.

Properties

Mabanol Pirate Race is a high-performance engine oil in the SAE 10W-40 viscosity range with synthetic technology. Optimum lubrication security at high temperatures and rotational speeds guarantees high engine protection even under the most extreme conditions. Deposits on pistons and valves are securely prevented, with exceptional engine cleanliness as a consequence. The viscosity characteristic at low temperatures means that the oil circulates the engine very quickly when starting, protecting it from any cold-start wear problems.

Specifications

- SAE Grade 10W-40
- ACEA A3
- API SL
- JASO MA2

Data

	Test method	Unit	Value
Density at 15°C	DIN 51 757	g/cm ³	0,873
Kin. Viscosity at 40°C	DIN EN ISO 3104	mm ² /s	95
Kin. Viscosity at 100°C	DIN EN ISO 3104	mm ² /s	14,2
Viscosity Index (VI)	DIN ISO 2909		155
Flash point COC	DIN ISO 2592	°C	225
Pourpoint	DIN ISO 3016	°C	-39
